Explore Climate Science at PAESTA's Science Conference At Penn State Brandywine

On Saturday November 19, Pennsylvania Earth Science Teachers Association (PAESTA), will hold its annual science conference on the Brandywine Campus of Penn State in Media, PA from 9:00 A.M- 1:30 P.M. This conference is free with free membership registration.

The theme this year, climate science, will be addressed by three scientists:

- Dr. Benjamin Felzer, Lehigh University
- Mr. Kyle Imhoff, State Climatologist of Pennsylvania
- Dr. Ravi Kopparapu , NASA Goddard

Dr. Benjamin Felzer will provide an overview of climate science and what scientists are currently studying about climate. Mr. Imhof will provide information about climate change in Pennsylvania as well as presenting data from the State Climatologist Office. Dr. Kopparapu will cover the exoplanet climate and atmospheres.

Register online by November 1 at <http://www.paesta.psu.edu/form/2016-paesta-science-conference-registration>.

PAESTA's mission is to facilitate and advance excellence in Pennsylvania's earth and space science education in grades K-12.

For more information, call Dr. Laura Guertin, at 610-892-1427 or uxg3@psu.edu.
